The Guild is a 501(c)3 not-for-profit cultural-based learning environment that is focused on the preservation of our country's creative heritage. Our purpose is to educate and train our guests on the traditional, sustainable and artisanal practices that our forefathers utilized from 1750-1840, in tandem with today's evolving techniques and technologies. The offerings are designed for both amateurs interested in learning a new skill and for professionals who seek to strengthen their technical understanding of traditional crafts.

The Guild is working with leading masters in their chosen fields to deliver unique and one-of-a-kind learning experiences that advocate the skills of artisanal craftsmanship. Broad areas of skill learning include woodworking, blacksmithing, timber framing, gun building, fiber arts, and leather working. Future areas of skill learning may include glassworks, printmaking, visual arts, pottery, basket making, homesteading, masonry and other related trades.

A range of classes, workshops and sessions will be offered that include beginner, intermediate, advanced and professional classes. Half-day, full-day, 2-day weekend, one-week, and multiple -week sessions will be added as demand dictates.
